

A modern living room interior featuring large, light-colored digital glazed vitrified tiles with a subtle marble pattern. The room includes a dark leather sofa with white and patterned cushions, a metal magazine rack, a dark wood TV stand with a large screen, and a dark wood cabinet. The walls are also covered in the same tiles, and the ceiling has recessed lighting.

DIGITAL GLAZED VITRIFIED TILES 600x1200mm

All designs are available in all sizes and Surfaces

- We have an exclusive range of GVT and PGVT with high resolution, sharper finishes. To provide uniqueness, they all are decorated with varied designs. Both the types of tiles are designed to make your space look smooth and stunning. Our PGVT are specially developed by additional firing process to make them super glossy. Because of the state of the art technology and high-end resources, our tiles come out to be slip & scratch resistant. We use nonporous liquid glass coat in additional firing process to make our products more durable so that they can accompany you for a longer time.
